

Classic Contemporary Style... *Sandwood Hills...*

Many 'inlanders' often feel the need to get away and relax, and Ballito has become the ideal destination for holiday makers wishing to escape the hustle and bustle of city living.

IVK Interiors were recently approached by a Johannesburg couple with these very same objectives in mind. The team flew to Johannesburg to meet with the client and obtained a clear brief before commencing with design. The client was looking for a classic yet modern interior with a specific focus on creating a relaxing holiday atmosphere. They were even willing to consider not including a television in the layout to ensure this lovely getaway destination offered no distractions.

The architecture of the building is contemporary in design, and designer Dale Dennis carefully selected similar style furniture to suit the building. Dale also chose to use softer finishes such as silk curtains with a classic pinch pleat to soften the strong geometric lines.

The living area incorporates oranges and reds to create warmth and contrasts well against the subtle blues and greens of the land and seascapes which form the view from the balcony.

The master bedroom is completed using a mauve colour scheme – the concept sprung from the owners prints of blue bells in the forest. All linen is classic white 100% cotton percale with accessories to match the prints.

Neutral linens and greens with floral embroidery have been used in the spare room, bringing the outside greenery indoors – leaving a sophisticated softer interior design.
